Nutley, NJ 07110-1199

Dear Ms. da Silva:

Your request to supplement your product license application for Interferon alfa-2a to include a new indication for the treatment of chronic Hepatitis C infection has been approved.

Please submit three copies of final printed labeling at the time of use and include part II of the label transmittal form with completed implementation.

This information will be included in your product license application file.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Karen D. Weiss", is written above the typed name.
